

Addendum to Instruction Manual IN 515

Orion GPS Kit for GoTo Telescope Mounts #7960

The Orion GPS Kit for GoTo Telescope Mounts has undergone an internal hardware change. Thus, effective January 2021, the revised GPS Kit will be compatible with SynScan GoTo hand controller firmware version 3.39.15 for V3 hand controllers and version 4.39.15 for V4 and V5 hand controllers. SynScan GoTo hand controllers with earlier firmware versions are not compatible with the revised GPS Kit. Subsequent versions of the SynScan GoTo hand controller firmware, when released, will also be compatible with the revised GPS Kit.

Older units of the Orion GPS Kit for GoTo Telescope Mounts are still compatible with SynScan hand controller firmware version 3.32 or 4.05 or later, up to but not including versions 3.39.15 and 4.39.15.

To download the latest firmware for the SynScan GoTo hand controller, go to
